⚠ Warnings ⚠

NOTICE

It is the responsibility of the owner/user to install, inspect, test, maintain, and operate these hoists in accordance with ASME B30.16, Safety Standard for Overhead Hoists. These general instructions deal with the normal installation, operation and maintenance situations encountered with the hoists described herein. The instructions should not be interpreted to anticipate every possible contingency or to anticipate the final system or configuration that uses these hoists. Read and observe the instructions stated in the manual furnished with equipment to be used with these hoists. These instructions include information for a variety of hoists. Therefore, all instructions and information may not apply to one specific hoist. Disregard those portions of the instructions that do not apply.

If the hoist owner/user requires additional information or if any information in these instructions is not clear, contact Advantage Sales & Supply, INC. Do not install, inspect, test, maintain, or operate hoist unless this information is fully understood.

WARNING

This hoist should not be installed, operated, or maintained by any person who has not read all the contents of these instructions, and ASME B30.16, Safety Standard for Overhead Hoists. Failure to read and comply with these instructions or any of the warnings or limitations noted herein can result in serious bodily injury or death, and/or property damage.

Only trained and qualified personnel shall operate and maintain this equipment.

Equipment described herein is not designed for, and should not be used for lifting, supporting, or transporting humans.

User should not use this hoist in conjunction with other equipment unless necessary and/or required safety devices applicable to the system are installed by the user.

Modifications to upgrade, rerate or otherwise alter these hoists shall be authorized only by the original equipment manufacturer or qualified professional engineer.

PRIOR TO INSTALLATION

Check for damage during shipment. Place claim with carrier if any damage is discovered. DO NOT install or use a damaged hoist. Check and verify that structure or other equipment that will support the hoist has a rated load capacity equal to or greater than the rated load capacity of the hoist to be used.

All hoists, clamps, and trolleys in this catalog are made in either China or South Korea.
